Jim

Thanks for the response. The WQCC's are not needed when looking at soil analytical, I figured it must be an oversight. Let me know if you come up with some other rational.

Hope-

Ed's out I'll discuss with him on Monday. Also with Steve, as I adapted some tables he had prepared that included the WQCC Standards. Since this was the first report of this type I prepared to NM regs (blessed ignorance on my part), I thought that since they were on the tables they were needed, but maybe I included them without really needing to.

Jim

Subject: SWMU #8 RR Lagoon

Ed and Jim

I have briefly looked at the Remedy Completion Report for the Rail Road Rack Lagoon SWMU #8. I have a quick question, why did Giant compare the soil analytical results to the New Mexico Water Quality Control Commission (WQCC) Standards (referenced in the report as New Mexico water quality standards)? Was this an OCD requirement?

Thanks

Hope
