Attached is the C-141 for a spill that occurred shortly after midnight Sunday morning Dec. 31st, 2006.

Cleanup continues at this time and is expected to be complete today or tomorrow.

I will get confirmation samples as well as pictures of the excavation when ready to take samples.

I will also take samples of the excavated soils after cleanup for waste determination.

If you have any questions, please give me a call at 505-722-0258.
