Hope, Carl, and all,
Here are a few pictures taken this morning 3-7-07.
Over night a small amount of oil did manage to find its way to Pond two.
We will, of course, be getting that cleaned up along with the rest of the
spilled material on EP-1 and both aeration lagoons as soon as possible.
Significant progress was made today, most of lagoon two was cleared,
and we will give you daily updates as the cleanup progresses.
Thanks, Steve
