Subject: Giant Refining Company, Gallup Refinery

Remarks: Steve Morris left a message on Sunday 9/16/07 at 11:15 a.m. to report a spill that occurred at ~ 11:00 a.m. in which a “run over” (approximately 50 to 60 gallons ) occurred at the cat feed tank (fuel oil, heavy residual). The spill was localized in the hot oil tank farm area. The company vac truck was on-site and Giant was working on obtaining an additional vac truck. Further cleanup will begin upon removal of the cat fed (fuel oil). A C-141 form will be completed and submitted. The Oil Conservation Division was contacted as well.
