

GREC 07

<b>COMMUNICATION RECORD</b>		Job No.
Meeting: Giant Gallup Refinery (Jim Lieb) and Kleinfelder (Bernie, Eileen Shannon)	Route to:	Date: 10/24/07
NMED: Hope Monzeglio, Dave Cobrain and Cheryl Frischkorn		Time: 1:30
	Phone No.	Recorded By: hm

Subject: Giant Refining Company, Gallup Refinery

Remarks: Kleinfelder, Giant's consultant called a meeting with NMED to discuss NMED's October 15, 2007 Notice of Disapproval (NOD) of the Monitoring Well Installation Report. The NOD required Giant to reinstall 3 monitoring wells at the New API separator. NMED determined that the three wells were not installed as directed in the March 23, 2007 and June 4, 2007 letters. In this meeting, Kleinfelder wanted to make sure they understood NMED's objective and the location of the monitoring wells. Kleinfelder tried to make a case as to why they should not have to reinstall the monitoring wells. In conclusion, Giant must install 3 new wells in accordance with the 10/15/07 NOD. NMED stated an extension would be granted if Giant could not make the deadline established in the NOD. However, Giant would need to submit a letter asking for the extension and provide a schedule of when the installation could be completed.
