Mr. Riege:

The New Mexico Oil Conservation Division (OCD) has reviewed Western Refining Southwest-Gallup Refinery’s (Western) “Process Design Report for Wastewater Treatment Plant Work Plan (Alternative Design, Revision A) dated April 2010 and letter dated April 30, 2010 from Mr. Mark Turri (Refinery Manager).

OCD also coordinated its efforts on the reply to Mr. Turri’s April 30, 2010 letter through the New Mexico Environment Department (NMED) to satisfy the intent of the OCD Discharge Permit.

The OCD hereby concurs with NMED’s Approval with Modification letter dated May 24, 2010.
