RE: Extension Request for figure and maps

Dear Ms. VanHorn:

Western Refining Gallup Refinery is working to revise the Figure 5 (Map of groundwater flow February 2010) that was in the Sampling Work Plan that was submitted to NMED earlier this year. We are also working with a consultant to prepare the ground water contour maps showing contours at various depths and times of the season that we said we would provide NMED by June 30, 2010. We anticipate that the revised Figure 5 and the contour maps will not be ready by June 30, 2010. There was a delay due to a change in staff here. Hence, we are requesting an extension for providing the revised Figure 5 and contour maps. We anticipate that the revised Figure 5 and maps will be available by August 1, 2010.

If you have any questions regarding this extension request, you may contact me at 505-863-0921.

Sincerely,

Jim Lieb
Environmental Engineer
