**Attachments:** 697-Facilities-Wells-201108\_FIG-2.pdf; 697-PlantLayout-201108\_FIG-1.pdf

Dave,  
Here are the electronic versions of the updated figures you requested in the email below.

Thanks,  
Ed

**Subject:** Permit Application figures

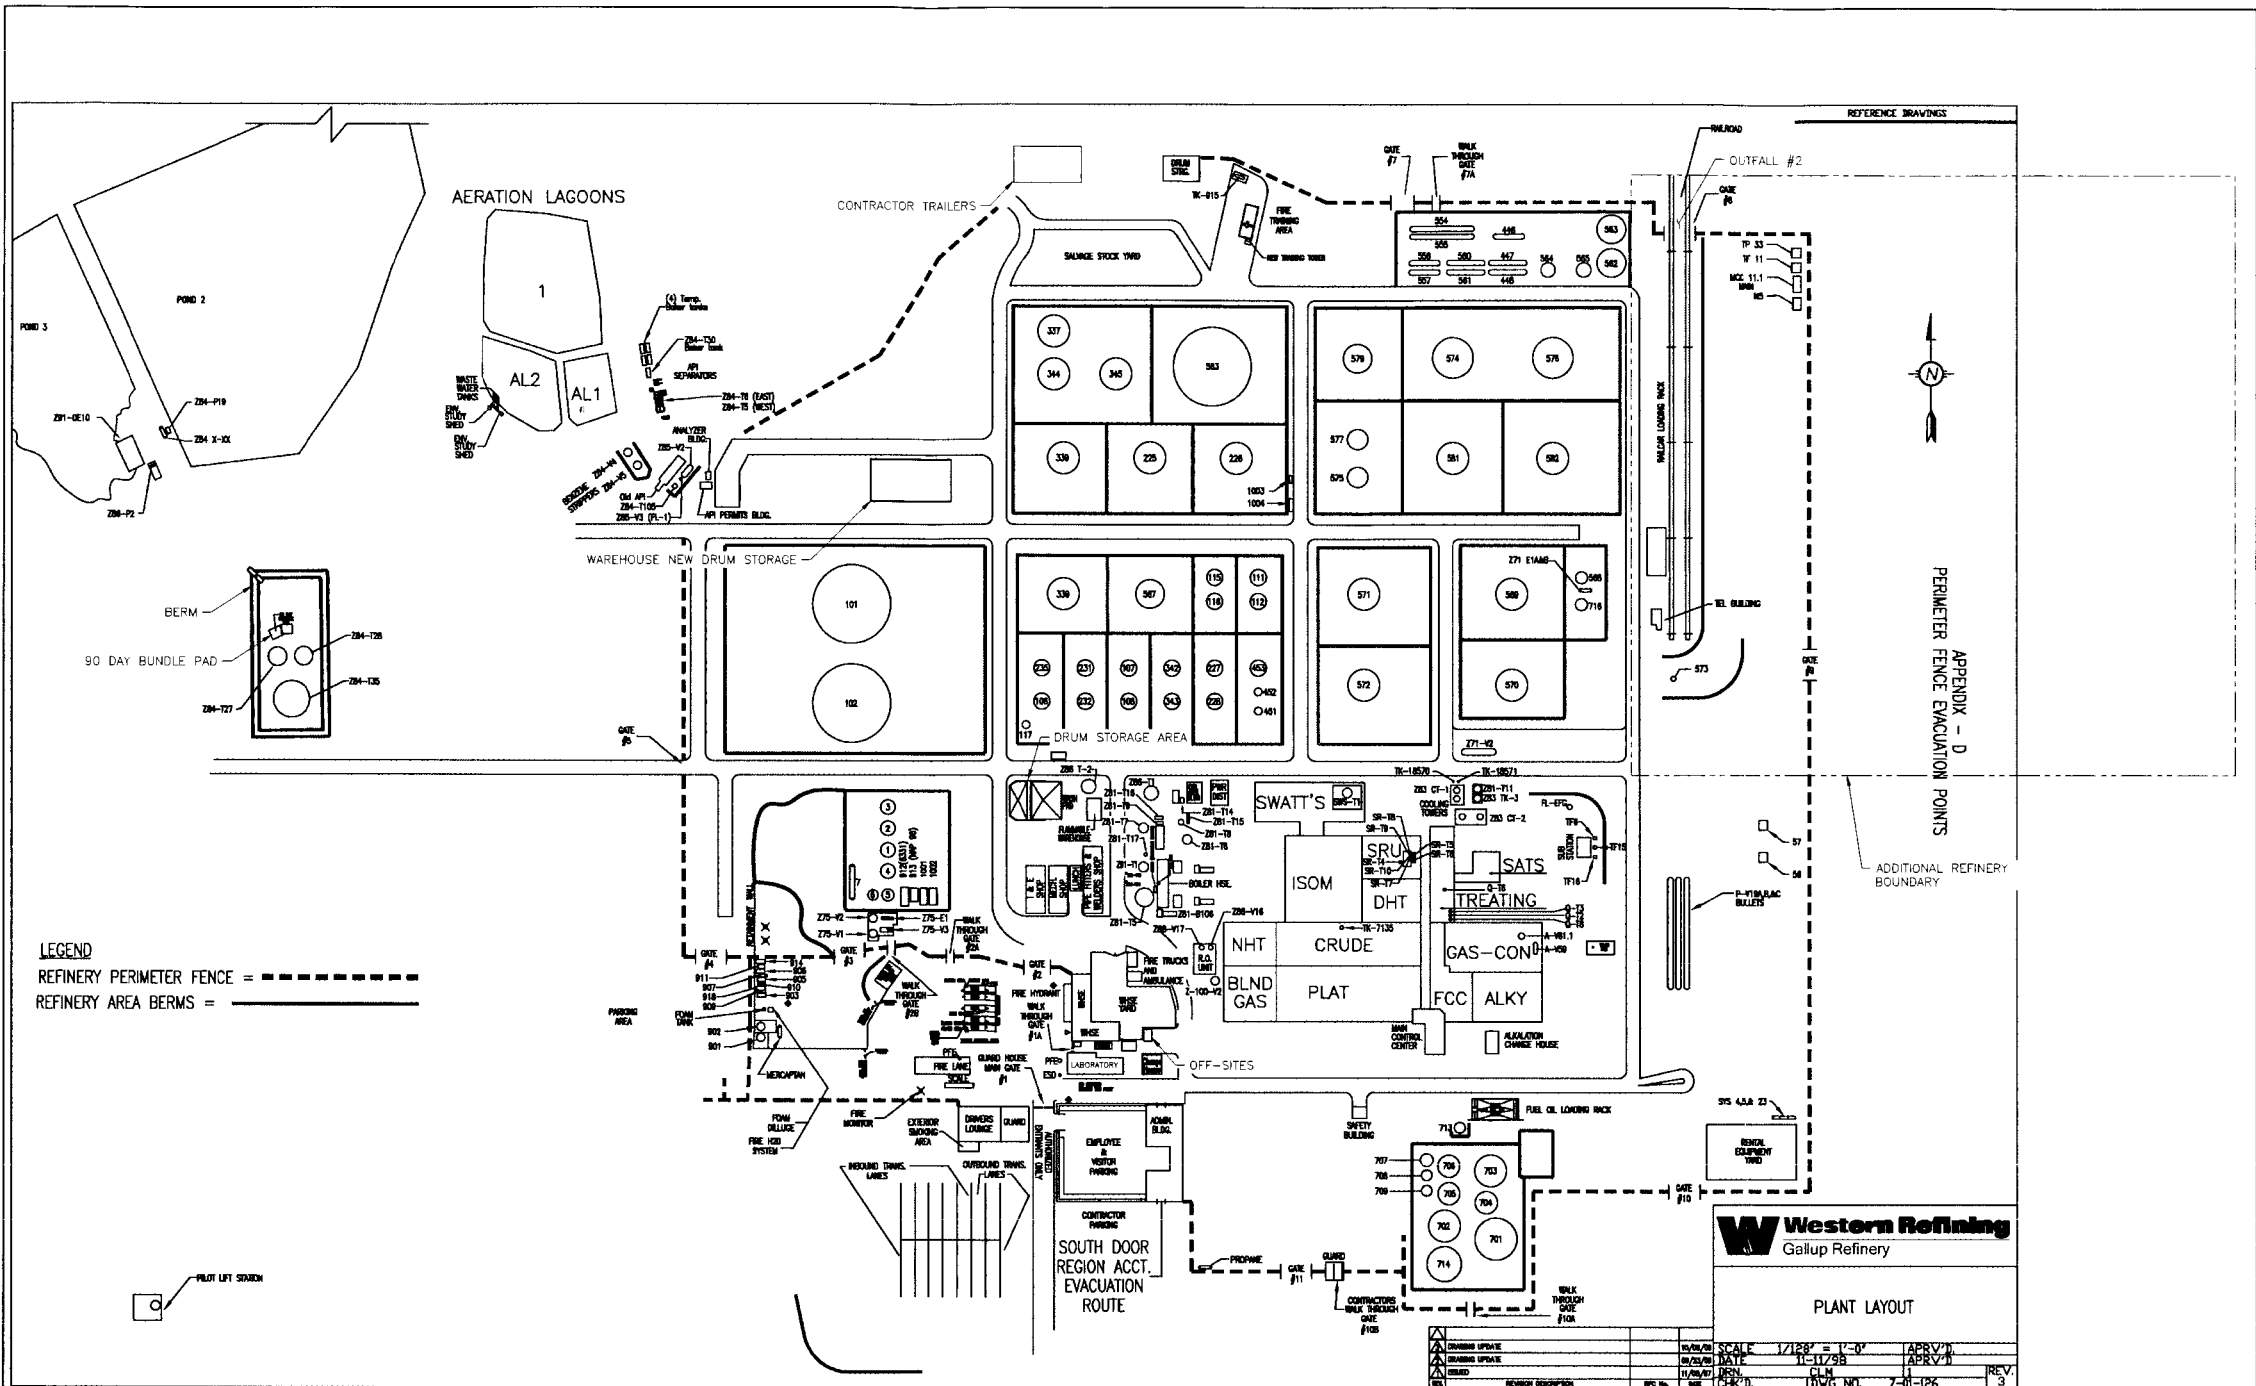

Ed,

This is another request for electronic copies of two figures that were included with the Permit Application. We would like a figure that shows the entire facility and a figure that shows the refinery itself. The refinery figure we have been working with is a large paper copy from 1998 that shows the refinery from evaporation pond 2 east past the east side railroad tracks, the refinery boundary south past the main gate and office building aeration lagoons and north past the tank farm, bullet tanks and fire training area that includes all of the tank numbers, process unit IDs and building identifications. Updated versions of these two maps will be included in the permit. The electronic versions will allow us to make copies for each copy of the permit. We need this by the August 22 to allow us time to get copies made for the issuance of the draft permit. The figures included in the application appear to be from the 1996 permit application and are outdated. We would like to avoid having to put a condition in the permit for submittal of these figures. Thanks.

Dave
