Subject: Western Gallup CAFO

Jeffrey: I communicated your request for written details of the cessation of benzene stripper usage by the CAFO deadline. Western has asked me to advise you that: (i) early the morning of November 10th, the inlet piping was physically removed from the benzene strippers and put in the scrap bin; and (ii) the strippers have not been in service since that time. Also, Western advised me that the number three benzene stripper located in the units was removed and has been out of service since the startup of the MPPE unit on May 8, 2012.

Please feel free to distribute this to your team and the NMED. Also, please let me know when you would like to plan a status call. Thanks.

Jean
