Ok. I have boxed everything up and you should have it Monday or Tuesday.

GW Work Plan
Response to Disapproval for Hydrocarbon Seep
CDs for 2015 and 2016 Annual GW Rpt
2 Due date extension requests
Disapproval Response for GW Monitoring Work Plans

Contact me with any questions.

Hi Brian-

Yes, please send the CDs care of John Kieling for processing. Generally, no submittals should be addressed to me directly, they all should go through whoever the Bureau Chief is at the time.

Also please send an extension request for the 2017 GW Report, that way your bases are covered regarding submittal dates.

If you have any other questions, just let me know.

Thank you for checking,
Kristen

I have two copies of the PDF files for each of the referenced reports ready to go. Do you want me to send them to you directly or to the attention of Mr. John E. Kieling for processing?

I will also send hard copies of all the documents that I emailed you yesterday to Mr. John Kieling.

Also, I spoke to Scott Crouch at Di Sorbo Consulting this morning and he said that the draftsmen (William Kingsley at Intertec) indicated that they would need more than one week to finish the drafting for the 2017 GW Report. Do you want me to send an extension request to extend the due date until November 30? I doubt that it will take them that long but if I'm asking for an extension I may as well make it the end of the month. My understanding is that it will take a couple more weeks to get the CAD drawings done and QA/QC them. Let me know how you would like to proceed.
