Subject: SWMU 10 Sludge Pits Revised Report

Hi Brian-

Do you know the status of the submittal for the SWMU 10 Revised Investigation Report?

We received a cover letter with response to comments that doesn't have a date on it, but was stamped in here on October 15th. It came with a disc with what seems to be the revised report, but there's no redline strikeout version of the report on the disc. Can you please send 2 hard copies of the revised SWMU 10 Report with discs that include the revised report and the redline strikeout as well as tables, attachments, laboratory reports and other report parts if necessary by the end of the month (November 30th).

If you have any questions, please call or email me.

Thank you,
Kristen
