Dear Mr. Moore:

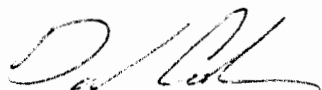

The New Mexico Environment Department (NMED) has reviewed the *Response to Approval Land Treatment Unit Post-Closure Care 2018 Sampling Event* (Response), dated September 30, 2020, submitted on behalf of Marathon Petroleum Company dba Western Refining Southwest Inc., Gallup Refinery (the Permittee).

The Response states, “[a]long the western perimeter – the dirt dike needs to be built back up to prevent stormwater run-on into the LTU along the road,” and “[a] work request has been initiated to address the area of concern in Item No. 7.” The Permittee must submit a letter notifying NMED that the work has been accomplished that includes photographs of the dirt dike repairs within 30 days after the repairs have been completed.

Mr. Moore .
