DEPUTY SECRETARY

CERTIFIED MAIL
RETURN RECEIPT REQUESTED

June 17, 1994

Mr. Harrison Orr
STEWS-DES-E
Environmental Services Division
U.S. Army White Sands Missile Range
White Sands Missile Range, New Mexico 88002

Dear Mr. Orr:

RE: **Comprehensive Groundwater Monitoring Evaluations at the Temperature Test Facility and HELSTF Cleaning Facility**

As part of the upcoming Comprehensive Groundwater Monitoring Evaluations (CMEs) to be conducted at the HELSTF Cleaning Facility and Temperature Test Facility (TTF), White Sands Missile Range must provide the information requested on the enclosed forms. This information should be completed and available to onsite representatives of the Hazardous and Radioactive Materials Bureau (HRMB) at the time of the CMEs. HRMB understands that these CMEs are scheduled for the week of July 11, 1994. HRMB will obtain updated information from WSMR on scheduling and directions to sites prior to initiation of the groundwater sampling events.

For the purpose of these CMEs, HRMB proposes to split groundwater samples with WSMR from monitoring wells at the HELSTF CF (monitoring wells CFW-1, CFW-2, CFW-3, and CFW-4) and the TTF (monitoring wells E-1, E-2, E-3, and E-4). HRMB will provide its own sample bottles and will have its groundwater sample splits analyzed at a commercial laboratory using the methods for the hazardous constituents stipulated within the approved Sampling and Analysis Plans for the HELSTF Cleaning Facility and the TTF.

If WSMR has any questions or comments, please contact Ron Kern of my staff at (505)827-4313. Thank you for your attention to this matter.

Sincerely,

Benito Garcia, Chief
Hazardous and Radioactive Materials Bureau
