Dallas, TX 75202-2733

Dear Mr. Honker:

Enclosed for your review is a copy of the Phase II RCRA Facility Investigation Report (Report). The Report details the second phase investigation results of the appendix I-IV SWMU sites on White Sands Missile Range (WSMR). The Report also presents conclusions regarding the need for further investigation activities.

We would appreciate your comments, regarding the Report, so that the appropriate changes can be made. Should you have major concerns with our Report, we would appreciate the opportunity to schedule a meeting with members of your staff to discuss your questions or concerns. A formal response from your office is requested which acknowledges receipt of the Report, approval of the Report if acceptable, or details the areas WSMR should address prior to approval of the Report.

Your consideration of this matter is appreciated. A copy of this letter and the Report will also be submitted to the New Mexico Environment Department for review. Please contact Mr. Hector Magallanes at (505) 678-2073 should you or members of your staff have any questions regarding this submittal.

Jerry L. Laws
Brigadier General, USA
Commanding General
