Re: **Analytical Results from Comprehensive Groundwater Monitoring Evaluations - Temperature Test Facility and HELSTF Cleaning Facility, White Sands Missile Range**

Dear Mr. Ladd:

With reference to the Hazardous and Radioactive Material Bureau's (HRMB) July 28, 1994 letter to White Sands Missile Range (WSMR), HRMB is transmitting the enclosed groundwater analytical data. The analyses relate to groundwater sample splits obtained by HRMB during the July 11-14, 1994 Comprehensive Groundwater Monitoring Evaluations (CME) conducted by HRMB at the Temperature Test Facility (TTF) and HELSTF Cleaning Facility (HCF). The analyses were conducted by HRMB's contract laboratory.

HRMB has previously received WSMR's analytical results for the CME groundwater sampling splits at the TTF and HCF. If there are any questions, please contact me at (505) 827-4308.

Sincerely,

A handwritten signature in cursive script, appearing to read "Ronald A. Kern".

Ronald A. Kern, RCRA Technical Compliance Program Manager
Hazardous and Radioactive Materials Bureau
