Subject: Administrative Update for Timing Station, Building 20710 (Uncle Site) Launch Complex 32, Range 5 East, Township 22 South, Section 11, Quarter Site SE, White Sands Missile Range, EPA ID No. NM2750211235

Dear Mr. Holmes:

We have reevaluated the investigation titled, "SOIL INVESTIGATION AT THE FORMER UNDERGROUND STORAGE TANK LOCATION AT BUILDING 20710 (UNCLE SITE)," and agree that the remaining contamination is unlikely to migrate due to the small quantity, low precipitation at the site, groundwater quality, depth to ground water, and the lack of receptors warrants no further action at this site.

White Sands Missile Range is formally requesting "No Further Action Status" as described in your letter dated April 6, 2006 for the Timing Station, Building 20710 underground storage tank release.

Please contact Mr. Javier Mendoza of our office at (505) 678-1007 if you have any questions regarding this matter.

Sincerely,

Thomas A. Ladd
