* Indicates well bottom depth from geophysical logging

D = Dedicated Bennett Pump and drop tube installed

F = Flush ground level completion in vault

NA = Not applicable, LNAPL was not detected in the well

S = Stick up completion with steel protective casing

SVE IC Soil vapor extraction internal combustion engine on well

NG = Not Gauged

* Indicates well bottom depth from geophysical logging

D = Dedicated Bennett Pump and drop tube installed

F = Flush ground level completion in vault

NA = Not applicable, LNAPL was not detected in the well

S = Stick up completion with steel protective casing

SVE IC Soil vapor extraction internal combustion engine on well

NG = Not Gauged

* Indicates well bottom depth from geophysical logging

D = Dedicated Bennett Pump and drop tube installed

F = Flush ground level completion in vault

NA = Not applicable, LNAPL was not detected in the well

S = Stick up completion with steel protective casing

SVE IC Soil vapor extraction internal combustion engine on well

NG = Not Gauged

Please note = N in Is level with in 6 inches of nearest well (s)? (Y or N) means greater than 25 feet away.

* Indicates well bottom depth from geophysical logging

D = Dedicated Bennett Pump and drop tube installed

F = Flush ground level completion in vault

NA = Not applicable, LNAPL was not detected in the well

S = Stick up completion with steel protective casing

SVE IC Soil vapor extraction internal combustion engine on well

NG = Not Gauged

Please note = N in Is level with in 6 inches of nearest well (s)? (Y or N) means greater than 25 feet away.

* Indicates well bottom depth from geophysical logging

D = Dedicated Bennett Pump and drop tube installed

F = Flush ground level completion in vault

NA = Not applicable, LNAPL was not detected in the well

S = Stick up completion with steel protective casing

SVE IC Soil vapor extraction internal combustion engine on well

NG = Not Gauged

Please note = N in Is level with in 6 inches of nearest well (s)? (Y or N) means greater than 25 feet away.

* Indicates well bottom depth from geophysical logging

D = Dedicated Bennett Pump and drop tube installed

F = Flush ground level completion in vault

NA = Not applicable, LNAPL was not detected in the well

S = Stick up completion with steel protective casing

SVE IC Soil vapor extraction internal combustion engine on well

NG = Not Gauged

Please note = N in Is level with in 6 inches of nearest well (s)? (Y or N) means greater than 25 feet away.

Meter Serial Number: 59241

Field Personnel Names: D. Aubrey, D. Rust

* Indicates well bottom depth from geophysical logging

D = Dedicated Bennett Pump and drop tube installed

F = Flush ground level completion in vault

NA = Not applicable, LNAPL was not detected in the well

S = Stick up completion with steel protective casing

SVE IC Soil vapor extraction internal combustion engine on well

NG = Not Gauged

Please note = N in Is level with in 6 inches of nearest well (s)? (Y or N) means greater than 25 feet away.

* Indicates well bottom depth from geophysical logging

D = Dedicated Bennett Pump and drop tube installed

F = Flush ground level completion in vault

NA = Not applicable, LNAPL was not detected in the well

S = Stick up completion with steel protective casing

SVE IC Soil vapor extraction internal combustion engine on well

NG = Not Gauged

Please note = N in Is level with in 6 inches of nearest well (s)? (Y or N) means greater than 25 feet away.

* Indicates well bottom depth from geophysical logging

D = Dedicated Bennett Pump and drop tube installed

F = Flush ground level completion in vault

NA = Not applicable, LNAPL was not detected in the well

S = Stick up completion with steel protective casing

SVE IC Soil vapor extraction internal combustion engine on well

NG = Not Gauged

Please note = N in Is level with in 6 inches of nearest well (s)? (Y or N) means greater than 25 feet away.

* Indicates well bottom depth from geophysical logging

D = Dedicated Bennett Pump and drop tube installed

F = Flush ground level completion in vault

NA = Not applicable, LNAPL was not detected in the well

S = Stick up completion with steel protective casing

SVE IC Soil vapor extraction internal combustion engine on well

NG = Not Gauged

Please note = N in Is level with in 6 inches of nearest well (s)? (Y or N) means greater than 25 feet away.
