Cross Sections for Quarterly Reports

I. Geologic Cross Sections with Contamination Contours (included in the Third Quarterly report 2011)

- Topography map of all cross-section lines with all wells (Figure 7-1)
- Geologic Cross Section A-A' with induction logs (Figure 7-2)
- Geologic Cross Section B-B' with induction logs (Figure 7-3)
- Geologic Cross Section C-C' with induction logs (Figure 7-4)
- Geologic Cross Section D-D' with induction logs (Figure 7-5)
- Geologic Cross Section E-E' with induction logs (Figure 7-6)

- Geologic Cross Section A-A' with EDB Concentrations in Groundwater (Figure 7-7)
- Geologic Cross Section B-B' with EDB Concentrations in Groundwater (Figure 7-8)
- Geologic Cross Section C-C' with EDB Concentrations in Groundwater (Figure 7-9)
- Geologic Cross Section D-D' with EDB Concentrations in Groundwater (Figure 7-10)
- Geologic Cross Section E-E' with EDB Concentrations in Groundwater (Figure 7-11)

- Geologic Cross Section A-A' with Benzene Concentrations in Soil (Appendix J, Plate J-1)
- Geologic Cross Section D-D' with Benzene Concentrations in Soil (Appendix J, Plate J-2)
- Geologic Cross Section E-E' with Benzene Concentrations in Soil (Appendix J, Plate J-3)

- Geologic Cross Section A-A' with Ethylbenzene Concentrations in Soil (Appendix J, Plate J-4)
- Geologic Cross Section D-D' with Ethylbenzene Concentrations in Soil (Appendix J, Plate J-5)
- Geologic Cross Section E-E' with Ethylbenzene Concentrations in Soil (Appendix J, Plate J-6)

- Geologic Cross Section A-A' with Naphthalene Concentrations in Soil (Appendix J, Plate J-7)
- Geologic Cross Section D-D' with Naphthalene Concentrations in Soil (Appendix J, Plate J-8)
- Geologic Cross Section E-E' with Naphthalene Concentrations in Soil (Appendix J, Plate J-9)

- Geologic Cross Section A-A' with TPH Concentrations in Soil (Appendix J, Plate J-10)
- Geologic Cross Section D-D' with TPH Concentrations in Soil (Appendix J, Plate J-11)
- Geologic Cross Section E-E' with TPH Concentrations in Soil (Appendix J, Plate J-12)

II. Soil Contamination Below Detection Limits

- EDB Concentrations
 - Geologic Cross Section A-A' with concentration contours --- below detection
 - Geologic Cross Section B-B' with concentration contours --- below detection
 - Geologic Cross Section C-C' with concentration contours --- below detection
 - Geologic Cross Section D-D' with concentration contours --- below detection
 - Geologic Cross Section E-E' with concentration contours --- below detection

- Toluene Concentrations
 - Geologic Cross Section A-A' with concentration contours --- below detection
 - Geologic Cross Section B-B' with concentration contours --- below detection
 - Geologic Cross Section C-C' with concentration contours --- below detection
 - Geologic Cross Section D-D' with concentration contours --- below detection
 - Geologic Cross Section E-E' with concentration contours --- below detection

- Xylene (total) Concentrations
 - Geologic Cross Section A-A' with concentration contours --- below detection
 - Geologic Cross Section B-B' with concentration contours --- below detection
 - Geologic Cross Section C-C' with concentration contours --- below detection
 - Geologic Cross Section D-D' with concentration contours --- below detection
 - Geologic Cross Section E-E' with concentration contours --- below detection

- Lead Concentrations
 - Geologic Cross Section A-A' with concentration contours --- below detection
 - Geologic Cross Section B-B' with concentration contours --- below detection
 - Geologic Cross Section C-C' with concentration contours --- below detection
 - Geologic Cross Section D-D' with concentration contours --- below detection
 - Geologic Cross Section E-E' with concentration contours --- below detection

III. Proposed Groundwater Maps and Cross Sections (to be included in 2011 Fourth Quarterly report pending data availability)

- Gasoline + Diesel Range Organics TPH Concentrations
 - Geologic Cross Section A-A' with concentration contours
 - Geologic Cross Section B-B' with concentration contours
 - Geologic Cross Section C-C' with concentration contours
 - Geologic Cross Section D-D' with concentration contours
 - Geologic Cross Section E-E' with concentration contours

- Nitrate and Nitrite concentrations
 - Geologic Cross Section A-A' with concentration contours
 - Geologic Cross Section B-B' with concentration contours
 - Geologic Cross Section C-C' with concentration contours
 - Geologic Cross Section D-D' with concentration contours
 - Geologic Cross Section E-E' with concentration contours

- Dissolved Manganese (Mn)
 - Geologic Cross Section A-A' with concentration contours
 - Geologic Cross Section B-B' with concentration contours
 - Geologic Cross Section C-C' with concentration contours
 - Geologic Cross Section D-D' with concentration contours
 - Geologic Cross Section D-D' with concentration contours

- Dissolved Oxygen
 - Geologic Cross Section A-A' with concentration contours
 - Geologic Cross Section B-B' with concentration contours
 - Geologic Cross Section C-C' with concentration contours
 - Geologic Cross Section D-D' with concentration contours
 - Geologic Cross Section E-E' with concentration contours
- Oxidation-Reduction Potential
 - Geologic Cross Section A-A' with concentration contours
 - Geologic Cross Section B-B' with concentration contours
 - Geologic Cross Section C-C' with concentration contours
 - Geologic Cross Section D-D' with concentration contours
 - Geologic Cross Section E-E' with concentration contours

IV. Proposed Vapor Map and Cross-Sections (to be included in 2011 Third Quarterly report pending data availability)

- Benzene Concentrations
 - Geologic Cross Section A-A' with concentration contours
 - Geologic Cross Section B-B' with concentration contours
 - Geologic Cross Section C-C' with concentration contours
 - Geologic Cross Section D-D' with concentration contours
 - Geologic Cross Section E-E' with concentration contours
- Total Volatile Organics Concentrations
 - Geologic Cross Section A-A' with concentration contours
 - Geologic Cross Section B-B' with concentration contours
 - Geologic Cross Section C-C' with concentration contours
 - Geologic Cross Section D-D' with concentration contours
 - Geologic Cross Section E-E' with concentration contours
