Kirtland AFB NM 87117-5000

Mr. John Kieling
Hazardous Waste Bureau
New Mexico Environment Department
2905 Rodeo Park Dr East, Bldg 1
Santa Fe NM 87505-6303

Mr. Kieling

After further Quality Assurance review and validation, Kirtland Air Force Base (KAFB) and its contractor, Shaw Environmental, discovered two deficiencies in the Quarterly Pre-Remedy Monitoring and Site Investigation Report for January – March 2011, Bulk Fuels Facility Spill Solid Waste Management Units ST-106 and SS-111, submitted to you on 27 May 11. The inconsistencies were discovered in Section 5, Table 5-1, Summary of Groundwater Monitoring Results, for bicarbonate alkalinity, groundwater monitor wells KAFBs-10615 and 10617. Additionally, the Field Data for Groundwater and Soil Vapor, Appendix G, was also omitted from the document.

To correct these deficiencies, in accordance with our phone conversations on the matter, KAFB is submitting replacement pages for Table 5-1, an electronic copy of the previously omitted appendix G, and a revised electronic copy of the quarterly report that incorporates all the corrections together with a certification page for the submittal. The replacement pages for Tables 5-2 through 5-4 and 6-1 through 6-4 are also included due to required re-pagination of the entire Table Section.

If you have any questions with regard to this submittal, please contact Mr. John S. Pike at (505) 846-8546.

Sincerely

DAVID J. HORNYAK, Colonel, USAF
Vice Commander
