Subject: Re: Objection to Delay of Final Order Requirement for 5-year Review for MWL dump

Dear Secretary David Martin and Bureau Chief John Kieling,

I am writing you in support of the e mail recently sent to you by Dave McCoy, Joni Arends and Bob Gilkeson concerning objections to a delay of the five year review required of the Mixed Waste Landfill. This delay is very inflammatory in relation to the high level of interest of the public concerning the Landfill. So many things have come to light these last few years concerning the landfill including allegations of cover up, it would be best for all of us to confront the issues directly in a formal, regulatory manner as soon as possible. This delay acerbates an already volatile situation. Please reconsider your decision to delay the review or, if you decide that too many milestones concerning SNL are already on the front burner, perhaps you could shorten the delay to a matter of months or at most, a year. Thank you for your consideration.

Best Wishes,
Janet Greenwald
